ALLOWANCE

Double Patenting

The provisional rejection of claims 1 – 14 on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 and 2 of copending Application No. 10/549,753 has been withdrawn in view of the declaration under 37 C.F.R. 1.132 filed March 19, 2009. The declaration clearly shows factual evidence that the copending application does not recognize the instant recited formula (2). Furthermore, the copending application does not recognize the benefit of satisfying formula (2) in that there is a significant increase in fatigue life of the spring steel.

Declaration Under 37 C.F.R. 1.132

The declaration under 37 CFR 1.132 filed March 19, 2009 is sufficient to overcome the rejection of claims 1 – 14 based upon Nagao et al. (JP 2002-212665) and Hashimura et al. (US 6,338,763).

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the prior art does not teach formula (2) as recited in instant claim 1. Furthermore, the prior art does not teach the benefit of satisfying formula (2) which is a significant increase in fatigue life of the spring steel as evidenced in the declaration under 37 C.F.R. 1.132 filed March 19, 2009. Therefore, formula (2) is not obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
